# The Developmental Continuum of the Experience Early Learning Skills

## Type to enter text

The Developmental Continuum of the Experience Early Learning Skills is a research-based continuum of 36 skills that indicate child development and learning. Each skill has up to three measurable learning goals. For each goal, the continuum outlines benchmark levels for children from birth to age eight.

The Developmental Continuum of the Experience Early Learning Skills is a sequenced progression. Children progress at varying rates based on individual development and needs.

The Developmental Continuum of the Experience Early Learning Skills serves as the basis for the development of these curricular systems which are imprints of the Experience Early Learning Company:

- Mother Goose Time
- Experience God
- More Math & Literacy
- Dance 'n Beats
- Experience Play

The Developmental Continuum of the Experience Early Learning Skills is included in the appendix

Visit [http://mothergoosetime.com/all\\_about/research.php](http://mothergoosetime.com/all_about/research.php) to learn how each Mother Goose Time tool supports developmentally-appropriate practice and child skill development.

## Alignment

This document details the alignment of the New Mexico PreK Early Learning Guidelines with the Developmental Continuum of the Experience Early Learning Skills.

In addition to the early learning guidelines for New Mexico, Mother Goose Time also reinforces the following skills:

- 12.1 Identifies letters and words.
- 12.2 Makes letter-sound connections.
- 16.2 Manipulates parts and wholes.
- 17.1 Flips and rotates objects.
- 18.1 Identifies and creates patterns.
- 22.2 Understands concepts of trade.
- 23.1 Identifies types of places.
- 23.2 Uses maps.
- 27.1 Identifies properties of matter.
- 27.2 Explores forces of motion.
- 30.1 Develops rhythm and tone.
- Second Language Learning

|                                  | 18 Patterns and Sorting     | 18.1 Identifies and creates patterns                                   | Plays predictable activities with caregivers such as patty-cake and peek-a-boo. | Attempts to mimic vocal and physical patterns.                                     | Copies patterns with two steps, such as red-blue, red-blue.  | Creates and extends two-step patterns.   | Creates and extends three- and four-step patterns and plays complex memory games.                                      | Determines the missing piece of a pattern within a set sequence. Recognizes simple patterns in the environment. | Creates or extends increasing or decreasing patterns.   | Develops and explains his/her own formula for creating a variety of patterns.   |
|                                  |                             | 18.2 Matches, sorts and charts   | Recognizes familiar people and objects.   | When shown one object, finds the match.  | Sort objects by one feature, such as size or color.  | After sorting objects by one feature, sorts again by a different feature.                                      | Sorts objects by more than one feature and explains why.   | Identifies, sorts and classifies objects by at least two features.  | Answers questions about data or objects sorted in up to three categories.   | Uses graphs and charts to represent data sorted in up to four categories.   |
|                                  | 19 Measurement              | 19.1 Estimates and measures  | Recognizes when to use whole hand or just two fingers to pick up an object.     | Explores size and weight of objects in relation to self.                           | Determines which object is bigger (heavier, longer) when given two objects.                                      | Uses non-standard measurement tools to estimate approximate size or volume. Verifies estimation with help.     | Estimates (not always logically) size and volume. Measures and describes findings.                                     | Makes logical estimates and uses measurement tools to check estimation.   | Explains which measurement tool makes best sense for the object being measured. Tells time in hours and half-hours.                 | Tells time. Estimates length in inches, feet, centimeters or meters. Measures an object using a variety of measurement standards.           |
| 19.2 Compares and seriates       |                             | Picks up and puts down objects. Demonstrates an understanding of more. | Places objects in a line. Demonstrates an understanding of more, none and one.  | Compares and orders two to three objects according to size, length, hue or weight. | Orders multiple objects by one feature using process of elimination. Describes order using first, then and last. | Arranges and orders multiple objects by size, length, hue or weight. Recalls a sequence of events.             | Orders multiple objects by two or more features. Orders events in time.  | Compares the length of two objects by using a third object (the length unit). Orders three objects by length.   | Compares and explains how much longer one object is than another using standard units of measurement.                               |   |
| 20 Logic                         | 20.1 Solves problems        | Reacts to a problem and seeks a desired outcome.                       | Experiments with cause and effect.  | Recognizes a problem and asks for help.  | Tries out many possible solutions to a problem.  | Uses previous knowledge to determine which solution to try first when solving a problem.                       | Mentally eliminates possible solutions to a problem by thinking through their potential results.                       | Explains the sequence of his/her problem-solving strategy.  | Solves hypothetical problems by connecting personal experiences to possible solutions.  |   |
| Social Studies                   | 21 Families and Communities | 21.1 Identifies community and family roles                             | Responds to primary caregivers.   | Recognizes the difference between a familiar and unfamiliar person.                | Identifies familiar people and pets.   | Describes family members and their relationship to self. Identifies and role-plays familiar community helpers. | Identifies roles of self and others and describes the job each may do.   | Compares roles, rules and responsibilities between different groups.  | Describes how roles and responsibilities or families and groups change over time.   | Identifies features in rural, urban and suburban communities and how these features impact roles and responsibilities.                      |
|                                  |                             | 21.2 Explores cultures and traditions                                  | Is exposed to family traditions or cultural events.                             | With help, participates in family traditions and customs.                          | Recognizes familiar symbols or artifacts of family traditions or customs.  | Describes the routines, familiar stories, traditions, foods and celebrations of own family and community.      | Explains the meaning and importance of their own traditions and customs. Begins to learn about other cultures.         | Explains the meaning and importance of traditions and customs of other people.                                  | Compares diverse cultures and traditions.   | Names influential people and events that have impacted familiar cultures and traditions.  |
|                                  |                             | 21.3 Respects diversity  | Sees diverse features of people in books, toys and media.                       | Explores people and their features side by side in a book or a mirror.             | Identifies physical similarities and differences between self and others.  | Interacts with peers who look, learn, believe or move differently.   | Asks questions about how others live, eat, play and believe.   | Explains how individuals, families and cultures differ.   | Demonstrates an understanding that some people have different needs or beliefs than self and seeks to support them accordingly.     | Demonstrates respect for people who look differently and have differing abilities or traditions.  |

Demonstrates an understanding that all people have needs. | Recognizes that all living things have similar basic needs. Distinguishes between needs and wants.            | Describes how living things attain what they need to survive.  | Describes how an organism's features and surroundings help it survive.   | Describes threats and challenges that living things must overcome to survive.   |
|                      |                                    | 26.2 Classifies organisms                         | Recognizes self as being separate from others.                               | Identifies and names familiar people, characters and animals.                                 | Groups living things by common characteristics.   | Identifies if an object can grow, eat or move.   | Sorts organisms as living or non-living and explains why.   | Describes the features of living things and groups them by similar features.   | Explains the purpose of specific features for various groups of organisms.   | Explains the relationships between a variety of species and how they fit within a larger group of animals or plants.                            |
|                      | 27 Physical Science                | 27.1 Identifies properties of matter              | Uses senses to explore objects in immediate environment.                     | Reacts to changes in texture, smell, sound or sight.  | With support, sorts objects by physical characteristics.  | Describes basic physical properties of objects and materials in immediate environment.             | Manipulates matter and observes any physical changes that may occur.  | Classifies and sorts materials by a variety of physical properties.  | Identifies materials that are solid, liquid and gaseous. Identifies how matter changes states.   | Describes characteristics of solids, liquids and gases. Explains how matter changes states.   |
|                      |                                    | 27.2 Explores forces and motions                  | Kicks feet or shakes arms to make other objects move.                        | Uses body to push or pull toys.   | Explores motion by moving, rolling, blowing on or dropping a toy.   | Explains how common vehicles, animals and people move. Sorts objects by type of movement.          | Experiments with and explains invisible forces (ramps, magnets, etc.).  | Experiments and compares the movement of various objects on a variety of surfaces.   | Recognizes that gravity makes unsupported objects fall. Identifies objects that are attracted to magnets.  | Recognizes that materials move differently on different surfaces. Explains how force is used to change the direction of moving objects.         |
|                      | 28 Earth Science                   | 28.1 Identifies weather and climates              | Reacts to weather changes in immediate environment.                          | Understands hot and cold. Points at clouds and explores the feel of rain and wind.            | Notifies changes in temperature or weather in the immediate environment.  | Identifies the climate and weather in the immediate environment.                                   | Explains how weather and climate changes may affect personal life. Identifies the current season.             | Explains that different places have different kinds of weather and climates.   | Explains the basic properties of the Sun, Moon and Earth. Describes the role of the sun on weather and day/night patterns.                       | Describes how the Sun and movements of the Earth affect climate.  |
