# The Developmental Continuum of the Experience Early Learning Skills

The Developmental Continuum of the Experience Early Learning Skills is a research-based continuum of 36 skills that indicate child development and learning. Each skill has up to three measurable learning goals. For each goal, the continuum outlines benchmark levels for children from birth to age eight.

The Developmental Continuum of the Experience Early Learning Skills is a sequenced progression. Children progress at varying rates based on individual development and needs.

The Developmental Continuum of the Experience Early Learning Skills serves as the basis for the development of these curricular systems which are imprints of the Experience Early Learning Company:

- Mother Goose Time
- Experience God
- More Math & Literacy
- Dance 'n Beats
- Experience Play

The Developmental Continuum of the Experience Early Learning Skills is included in the appendix
